

# ELI JOHNSON

## FULL STACK DEVELOPER

### Summary & Objective

Former mathematics teacher returning to the code. Making a career change at this point in my life is unfortunate, but necessary. I'm looking to join a squad of problem solvers, innovators, and risk takers in the field of online software development. To join a team of like minded, hard working, cheerful people who want to kick ass everyday and have fun while doing so. That'd be rad. I love working in a group, making new friends, and learning new things. I'm a fast learner, and eager to soak up all I can from those willing to share. I'm confident that I can contribute and be an asset to the company.
